The Turkish olive oil sector

The value and unique characteristics of olives and olive oil have been acknowledged for centuries and are gaining even more prominence today. Cultivation of this noble fruit is concentrated in specific regions of the world, primarily in the countries bordering the shores of the Mediterranean. Turkey is one of those fortunate countries and is ranked as the world's second biggest producer.

International Olive Council

”

masmana

“

Masmana is the result of our endless efforts to brand our field productions and make it a part of your everyday life. Our olives are grown and nurtured by natural process and hand collected one by one carefully without destroying its natural qualities. They are then packed in our packaging unit armed with superior technology keeping in mind the current hygiene and sanitation guidelines. All our industrial facilities are certified by ISO.

All the olive lovers like us, because our olive oils are -

- Organic • Extra-Virgin • Highest Quality
- First Cold Pressed • Early Harvest

”

Olive Oil Products

Organic Olive Oils

Dark Glass Bottle
500 ml
Code: ZY-01

“ Our olive trees for organic olive oil are grown with natural methods and without using any chemical pesticides and fertilizers. The organic olive oil is obtained by the cold pressing method on a special production unit immediately after collecting from the olive fields, where the olives are hand-picked carefully by the skilled person. The flavor and aroma of this product always remain same, because the olives are collected from the same region and carefully are avoided to be mixing with any other types of olives. The colored glass bottles preserve the perfect aroma and health benefits of the organic the olive oils from the very first day.

Extra Virgin Olive Oils

“ We offer the best quality extra-virgin olive oil to our customers by a thorough and careful chemical and sensory analysis.

This extra-virgin olive oil contains all the natural properties of olives and does not lose any antioxidants and phenol as we follow the cold extraction technique. As a result, you will get a perfect bitterness and burning sensation while tasting.

When you will use this natural extra virgin olive oils in salads, appetizers, cold olive oil dishes, meat dishes, fish and white meats, you will feel a taste of purity. It is especially recommended to consume this grade of olive oil raw.
